Global HQ - Sugar Land, TX

Accredo Packaging Today

Global HQ - Sugar Land, Texas, U.S.A.

- Accredo Packaging is a fully integrated flexible packaging converting company with a focus on sustainability in manufacture practices.
- We have the most advanced technology available for blown films, flexographic printing, adhesive lamination, pouch and bag making.
- Products include coextruded films, printed rollstock, printed laminated rollstock, pouches and wicketed bags.

4 Sustainable Packaging Options

- Packaging sourced from conventional hydrocarbon-based raw materials.
- Produced in a more sustainable production process.

Conventional

- Polyethylene SUP's for Dry Goods and Frozen Food applications.
- Certified by TREX Recyclers.
- Conventional PET//PE structures cannot be recycled.

Recyclable

- Using renewably-sourced resin from sugar-cane, Accredo is able to offer:
- tissue/towel overwraps
- SUP's and rollstock
- shrink bundle film

Renewable

- Product manufacture from certified compostable (ASTM 6400) films.

Compostable

* Product approved for **Trex** recycling system.

The background of the slide is a stylized, high-contrast illustration of a supermarket aisle. The shelves are filled with various products, including bags of snacks, boxes of tissues, and other household items. The perspective is looking down the aisle, with the shelves curving slightly to the left and right. The colors are muted and the style is graphic, resembling a low-poly or stylized digital painting.

Target Markets

- Snack Food
- Confectionery
- Pet treats
- Beverage
- Tissue/towel overwraps
- Diapers
- Femcare
- Lidding
- Compressed packaging

Accredo Packaging, Inc.
